
Configuratia produselor

CATALOGUE AMCO-01

Disposable immersion thermocouple TIN

Multi-immersion thermocouple MI

Thermocouple cap STIN

Disposable multi-immersion thermocouple cap STIN-MI

Comby-probe TMS

Contact block BCA

Coupling lance L

Sampling device MS3

Soliterm ST-2K

Contact block BC ST

Soliterm support SST

CATALOGUE AMCO-02

CATALOGUE AMCO-03

Step level magnetic signaller SNT-RP

Level alarm with electrodes SNE

Indicating flowmeters ROTROM I

Indicating flowmeter with built-in air valve

ROTROM ID>IDR

Pressure measurement gauge and vacuum

Thermomanometer indicators TM

Technical thermocouples TC

Temperature microrelay mRT

Industrial fittings

Valve for LGP cylinder

Electromagnetic valves

Electrovalves

Thermodynamic condensing vessel OCT

Compressed air pressure reducer RP

Wood moisturemeter UL

Spaktester IT

CATALOGUE AMCO-04

Reception Protocols PGM

Catalyst gauzes

Pictures crucibles / Pictures dishes / Technical details

Laboratory equipment

Thermocouple wires for high temperatures measurements

Bushings for Glass Fibre Production

ENGINEERING

Techniques for measuring temperature in the melting metal

Techniques for prelevation probe in the melting metal

Techniques for carbon determination in cast irons

Detection,signaling and accumulation control of dangerous gases:natural gas(pipe-line pas),LGP,carbon monoxide-CO,carbon dioxide-CO2

Gaz protection systems in case of earthquake

Techniques for monitoring the level of liquids

Techniques for pressure monitoring in corrosive fluids

Techniques for monitoring the temperature in industry

Special equipments:speed monitoring

Techniques for monitoring fluid flow

Precious metal Platinum,Rhodium,Palladium recovery and refinery

Precious metal Gold,Silver recovery and refinery

Precious metal catalysts

Precious metal PGM laboratory equipment TOP
